April 2026

1. PROJECT OVERVIEW

This agreement outlines the scope of work, deliverables, technical specifications, payment terms, support commitments, and ownership details for the design, development, and deployment of **WorkingForGod.org** — a Christian-based professional development and discipleship platform.

WorkingForGod.org is envisioned as a comprehensive platform that equips individuals and organizations with faith-centered educational resources. The platform will provide structured video-based courses, articles, community features, and learning materials inspired by Masterclass.com and LinkedIn Learning, tailored to Christian professionals seeking to integrate faith and excellence in their career pursuits.

Parties to this Agreement:

- **The Client:** AiMP (Apostles In The Market Place) Network, represented by Nwamaka Okoye
- **The Developer:** Algolog Limited, a technology company registered in Nigeria

2. SCOPE OF WORK & DELIVERABLES

The following components are included in this project:

A. UI/UX Prototype (Completed)

A high-fidelity interactive Figma prototype has been designed and delivered, covering all core screens and user flows. This prototype has been reviewed and approved as the foundation for development.

B. Full Platform Development

The following features and modules will be built as part of the platform:

Landing / Home Page

- Professional, faith-aligned hero section with mission tagline
- Featured trainers section with photos and bios
- Featured courses section with thumbnails
- Testimonials slider
- Dual CTA for individuals and organizations
- Dynamic course counters and trainer highlights

Course Library & Training Modules

- Curated courses segmented by themes (Leadership, Career Growth, Integrity, Business Ethics)
- Video player with chapter/section navigation
- Progress bar tracking per course
- “Continue Watching” functionality for returning users
- Reflection and discussion questions after each video segment
- Downloadable resources per course (PDF guides, scripture references)
- Bookmarking and related courses feature
- Free-tier access for teaser content

Article & Resources Library

- Categorized articles by theme
- Search and filter functionality
- Grid/list view with thumbnails, titles, and summaries
- Embedded content support (YouTube sermons, teaching clips)

Community Forum

- “Post a Dilemma” feature — users anonymously submit real ethical or workplace issues
- Moderated forum with biblical feedback from trusted contributors
- Categorized discussions

Events & Speakers Section

- Future conferences and speaker lineup
- Faith-based workplace event promotions and announcements

Subscription & Payment System

- Individual plans: Monthly and Yearly subscription options
- Organization plans: Tiered pricing based on number of seats
- Payment gateway integration
- Admin dashboard for organizations to monitor staff participation

User Profile & Dashboard

- Track completed courses and progress
- Save/bookmark articles and favourite lessons
- Subscription management
- Course history

About Us & Mission Page

- Vision and mission statement
- Core scriptures that guide the platform
- Platform goals and narrative

Content Management System (CMS)

- Admin panel for easy upload of videos, articles, and resources
- User management and subscription monitoring
- Analytics — track user engagement, content performance, and growth metrics
- Forum moderation tools

3. TECHNICAL SPECIFICATIONS

The platform will be built using the following technologies:

Component	Technology
Server Runtime	Node.js (JavaScript)
Frontend Framework	Next.js + React.js
Cloud Hosting	Microsoft Azure
Infrastructure	Terraform (Infrastructure as Code)
Database	PostgreSQL
Security Standard	OWASP (industry standard for web application security)
Video Delivery	HLS streaming + YouTube embeds
Payment Integration	Paystack (or equivalent)

Key Technical Commitments:

- Fully responsive design (desktop, tablet, and mobile)
- OWASP security standard compliance — the widely accepted security standard for software applications
- Scalable cloud infrastructure on Azure
- Regular backups and security services
- CDN for optimized video streaming

4. PROJECT INVESTMENT

The total project cost covers full platform development, deployment, quality testing, CMS setup, payment integration, and staff training.

Phase	Cost (NGN)
Frontend Development	Included
Backend Development	Included
Subscription & Payment Integration	Included
Content Management System Setup	Included
Deployment & Quality Testing	Included
Staff Training & Manual	Included
Total Project Cost	**₦8,900,000**

Payment Schedule:

Milestone	Amount (NGN)
Upfront Payment (Project Commencement)	₦5,000,000
Balance on Completion (Deployment & Handover)	₦3,900,000
Total	**₦8,900,000**

Note: The total project cost excludes cloud hosting fees, which are billed directly by the cloud provider (Microsoft Azure) based on usage. Algolog will assist with setup and configuration.

5. PROJECT TIMELINE

The full project will be delivered within **6 weeks** from the date of project commencement.

Development begins upon receipt of the upfront payment (₦5,000,000). This timeline assumes timely provision of content (course videos, articles, trainer bios, and images) by the client.

6. TRAINING & HANDOVER

Upon completion of development and deployment, the following will be provided:

- **Staff Training:** All designated staff will be trained on how to use and manage the platform, including the CMS, user management, content uploads, and subscription monitoring
- **Comprehensive Manual:** A written user manual/guide will be delivered covering all platform features and administrative functions
- **Admin Access:** Full administrative access to the platform, CMS, and hosting dashboard

7. SUPPORT & MAINTENANCE

Algolog Limited is committed to providing ongoing support for the WorkingForGod.org platform under the following terms:

What is Included (at no additional cost):

- Free life-long technical support for any issues, bugs, or questions related to the features and functionality delivered as part of this agreement
- Bug fixes and troubleshooting within the originally agreed scope
- Guidance on platform usage, content management, and administrative functions
- Security patches and critical updates to maintain platform stability

What Requires Separate Discussion:

- New features, modules, or functionality not included in the original scope of this agreement
- Significant redesigns or UI overhauls beyond the approved prototype
- Integration with third-party systems not specified in this agreement
- Mobile app development (Android/iOS)

Any requests that fall outside the scope of what was originally agreed and delivered will require a separate discussion to determine scope, timeline, and cost.

8. OWNERSHIP & INTELLECTUAL PROPERTY

Upon full payment of the total project cost (₦8,900,000), the following ownership rights transfer to the Client:

- Full ownership of the WorkingForGod.org platform, including all source code, design assets, and documentation
- The platform is the Client's property — the Client is free to manage, modify, or extend it independently
- No recurring licensing fees or ownership restrictions from Algolog Limited
- All login credentials, API keys, hosting access, and administrative controls will be handed over to the Client

Algolog Limited retains the right to reference WorkingForGod.org in its portfolio as a completed project, unless otherwise requested by the Client.

9. CLOUD HOSTING & INFRASTRUCTURE

The platform will be hosted on **Microsoft Azure** (or equivalent cloud provider). Hosting is a separate, ongoing cost paid directly to the cloud provider.

- Algolog will set up and configure the cloud infrastructure as part of the project
- Hosting includes secure servers, scalable storage, CDN for video streaming, regular backups, and security services
- Hosting costs scale with the user base and data volume
- The Client will have full access to the hosting dashboard and billing

10. TERMS & CONDITIONS

1. This agreement becomes effective upon receipt of the upfront payment (₦5,000,000).
2. The project timeline begins from the date of upfront payment receipt.
3. Timely provision of content (videos, articles, images, trainer information) by the Client is essential to meeting the stated timeline. Delays in content delivery may extend the project duration.
4. This agreement and the quoted costs are valid for 30 days from the date of issuance.
5. Any modifications to the scope of work after commencement will be documented as an addendum to this agreement with adjusted costs and timelines as applicable.
6. Either party may terminate this agreement with 14 days' written notice. In the event of termination, the Client will be billed for work completed up to the date of termination.

11. ACCEPTANCE

By signing below, both parties acknowledge and agree to the terms, scope, deliverables, payment schedule, and conditions outlined in this agreement.
